

**TheManPF presents “Chronicles of Light and Dark”,  
a powerful metal tribute  
to *The Legend of Zelda: A Link to the Past***

**Tijuana, Mexico.-** Relive the world from *The Legend of Zelda* with “**Chronicles of Light and Dark**”, a new single by **TheManPF** which reinterprets the unforgettable dungeon music from ***The Legend of Zelda: A Link to the Past***, the Super Nintendo classic.

With his characteristic progressive and technical style, **TheManPF** delivers a dramatic version, full of tension and dread. Joined by the talented bassist **Zachary Chapman**, this arrangement transforms **Koji Kondo**'s original material into an audacious and modern piece, without losing the essence that made ***A Link to the Past***'s soundtrack a milestone of video game music history.

This new release is already available on all streaming platforms, as a small sample of what we'll hear in **Prime Cuts**, **TheManPF**'s first solo album to be released next June. It will include tributes to more iconic games, such as *Mega Man*, *Pokémon*, *Shadow of the Colossus* and *Cuphead* among many others.

**Listen to “Chronicles of Light and Dark” relive *A Link to the Past*’s dungeons like never before. Available on all streaming platforms.**
